

JOB TITLE: Manager - Global Supply Planning Design

LOCATION: Bangalore

ABOUT UNILEVER:

Be part of the world's most successful, purpose-led business. Work with brands that are well-loved around the world, that improve the lives of our consumers and the communities around us. We promote innovation, big and small, to make our business win and grow; and we believe in business as a force for good. Unleash your curiosity, challenge ideas and disrupt processes; use your energy to make this happen. Our brilliant business leaders and colleagues provide mentorship and inspiration, so you can be at your best. Every day, nine out of ten Indian households use our products to feel good, look good and get more out of life – giving us a unique opportunity to build a brighter future.

Every individual here can bring their purpose to life through their work. Join us and you'll be surrounded by inspiring leaders and supportive peers. Among them, you'll channel your purpose, bring fresh ideas to the table, and simply be you. As you work to make a real impact on the business and the world, we'll work to help you become a better you.

ABOUT UNIOPS:

Unilever Operations (UniOps) is the global technology and operations engine of Unilever offering business services, technology, and enterprise solutions. UniOps serves over 190 locations and through a network of specialized service lines and partners delivers insights and innovations, user experiences and end-to-end seamless delivery making Unilever Purpose Led and Future Fit.

MAIN JOB PURPOSE:

The purpose of this role is to define the supply planning global process model and define a Global Target Operating Model for all supply planning activities and integration with other planning roles. Keeping in view the ongoing technology programs in planning, the role is expected to embed in E2E user stories & keep planners in centre.

The role is expected to create value through driving higher service levels with reduced inventory (working capital) and business waste through best in class integrated process designs.

The iOps program is one of our most ambitious and impactful transformational programs to support driving business growth. Many business processes will be simplified, integrated, digitalized and consolidated across a full E2E spectrum, ranging from IBP (Integrated Business Planning) to Collection of Cash. End to End Business Planning is one of the key global business processes inside the iOps framework. This regional iOps Execution lead role plays an instrumental role to embed all CD related processes into a seamless end to end planning process.

KEY ACCOUNTABILITIES:

To design GPM (Global Process Model) for all Supply Planning and associated processes.

Create RACI for the processes basis future TO BE organization designs

Exceptions sign off for any deviations to Target Operating Model designed for market

All the connectors of Supply planning with Procurement, Import /Exports, CD and customer service team to be defined in detail - in process and RACI

Work closely with Markets, Partners and Market Engagement teams to ensure deployment and adoption of GPMs and RACI

Work with different tech teams, specifically Kinaxis, to integrate process designs with tech.

Ensure end-to-end synergy in process and tech designs.

Look for next generation of improvement ideas and designs

To support delivery of cash, cost & service for markets with a robust performance measurement, monitoring, tracking & governance framework.

Drive continuous improvement program along with partner and PDN to improve operational efficiency, ser

vice & cost optimization agenda for business.

Help set up & drive executing global new capabilities – process, tools and analytics across planning areas along with outsourcing partner.

Drive Efficiency, Standardization, Simplification, Best Practice Service Delivery

To co-ordinate with a large team towards efficient business collaboration, process resilience & drive performance improvement for supply chain.

Robust Governance at Leadership & Operational Market Level and Supply Partner

KEY REQUIREMENTS:

10-12 years of experience in Supply chain (Planning/ Procurement).

Successful experience of leading planning/manufacturing teams

Proven experience in SC with a track record of delivering new capabilities and global exposure.

Educational background with specialization in Supply Chain Management or Operations research preferred.

KEY INTERFACES:

Market Planning Teams
